

Remote control of Aethalometers®

AEccessor™

- Access your Aethalometer from your computer, tablet or phone
- Powerful, efficient, real-time

Manufactured in Europe by
Aerosol d.o.o., Slovenia

Product specifications

Get the screen of your Aethalometer AE33 on your computer, tablet or phone.

Knowing that your instrument is operating properly is of utmost importance for any operator. This is especially true when the instrument is located in a remote location. With **AEccessor** you are able to check the instrument status from your computer or phone without leaving the office.

BENEFITS

Be assured

- Reassurance that the instruments are working properly.
- Knowing when the tape will run out.

Stay connected

- No need for field trips to check up on instruments.
- Knowing the issue before going into the field.
- Instrument parameters can be changed remotely.

KEY FEATURES

- Internet communication.
- Identical user interface as on the instrument.
- Manual interface in case of poor internet connection.
- Runs on MS Windows, Android, iOS.

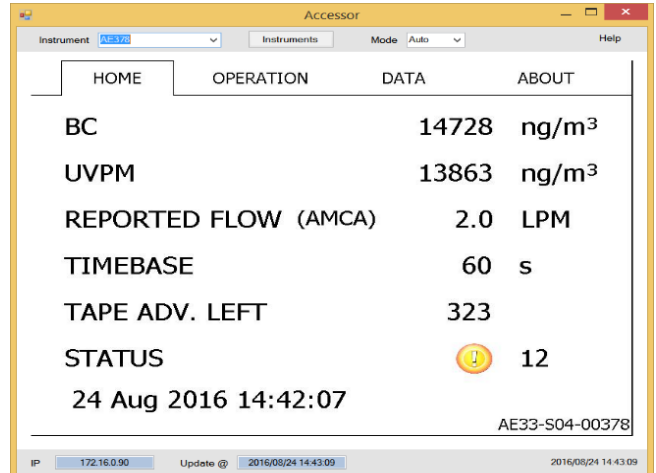

INSTALLATION EXAMPLE

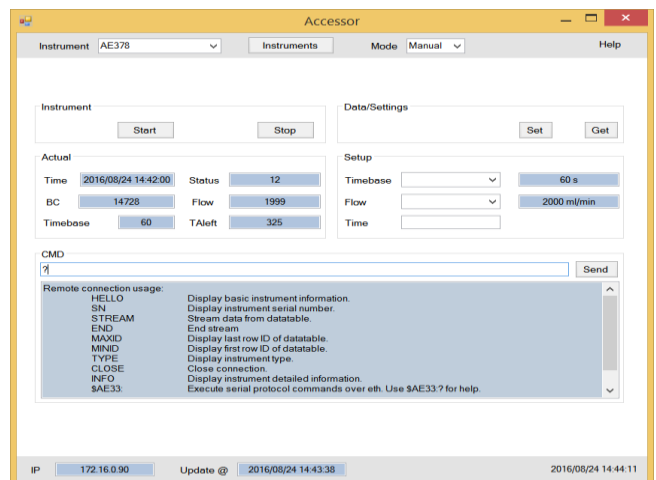

1. Connect Aethalometer to the intranet.
2. Install AEccessor to a computer connected to the same intranet.
3. Use TeamViewer to access the computer remotely.
