# Aerosol & Magee Scientific

## MISSION

Our mission is to **raise awareness of carbonaceous aerosols**; by providing knowledge, systems and data that can lead to policies to make the environment a safer and healthier place for all.

## VISION

- to be the **leading producer, partner and provider** of systems, services and support to users in the field of carbonaceous aerosols.
- to have a **leading research and development position** in the segment of all carbonaceous aerosols

# INTRODUCTION

1979

invented Aethalometer® concept

1986  MAGEE SCIENTIFIC

First commercial sale.

1996

production by OEM in Slovenia (Optotek)

2005

office, professional staff in Berkeley

2007  Aerosol

started fully-owned subsidiary ('Aerosol') in Slovenia for R&D and production

2011

microAE spun-off to AethLabs

2012

Introduction of AE33
